

Tornado Safety

1. A Tornado Watch means conditions are favorable for the development of tornados and severe thunderstorms.
 2. A Tornado Warning means a tornado has been spotted or indicated by radar and you must seek shelter immediately.
 3. Go to the lowest floor and in the center of your home. Basements, bathrooms, and closets offer the best protection.
 4. Avoid large open rooms and windows. **DO NOT** open any windows.
 5. Try to get under a sturdy object such as furniture in your home.
 6. If you are in a car or mobile home, leave immediately and find a sturdier environment.
- 

7. If a sturdy environment is not possible, lie flat in a ditch and cover your face with your hands or a blanket and be alert for flash flooding.

8. Finally, **ACT QUICKLY!**
